

2026-04-23-abu-Recording

[Speaker 1] (0:04 - 6:22)

It's the 23rd April 2026 Wednesday 11 Thursday Thursday 11 48 a.m. I had breakfast. I'm very tacky Shows, but what I feel is this Rousiness, they're not actually sleep. My head is heavy and I just won't lie down and do nothing This has often happened when I'm attending a talk or whatever in London and I didn't realise this is how I feel when I have a bout of tachycardia Life course is it's hundred and twenty-five beats a minute Omron said it was hundred and sixty, but that was a moment ago and it could be irregular and so both could be correct Hello, mr.

Good morning, do you have a couple of minutes to talk because you told me not to Okay, okay the two things I wanted to tell you that you are doing a case of undue influence and I Want you to know I think you may know my case. Remember my father died on 1st of August 2024 and I've been checking my diaries and the last I spoke to him was 17th March after that he had gone to live with my sister and on 28th March the church went to knock on his door and I Think the next-door neighbour mrs. Tatebury 20 number 20 house number 20 said she's going to live with the other sister but I sent registered post to my father's address, right and Want to read you a toast address to my father because there's no injunction of contacting my father now that she returned but the two letters were sent on in April 2024 and May 2024 were signed and Accepted and Whoever signed it is not my father because my father and she wanted me to think it was my father It may be mrs Tatebury next door signed as my father But one of the letters is signed as Chris and my father does not ever call himself Chris So somebody signed for him and I think it's mrs Tatebury and I wanted you to know the lady in number 20 the man in 20 They're not a liable witness and they pretended to be my father it looks like but you can have those letters and the Royal mail because that should be evidence to you and the letter that she returned that that should be evidence to you that she prevented communication and a friend visited a Tamil friend visited them and left a note The other thing is that Chad GPT thinks the letter of wishes, you know My father's got a will and the letter of wishes so the letter of wishes I've shown it to Chad GPT and it thinks that the resolution of the signature is different from the better than the resolution of the page and It thinks that there is a very strong suspicion of tampering and in the document might have been substantially altered Faith but because she's given you a low quality photograph and not from a scanner and she I think when you wrote letter She didn't want to accept the registered post and eventually she accepted and maybe that time she got herself a lawyer Who's in Manchester, but she just maybe sent this kind of dated copy But she has not shown an original and I think it is fake Now in when I had the criminal convictions on given pizza in which he gave two letters of evidence To the police none of them had anything criminal But she had removed my signature and date using computer once again and said I wrote them anonymously because I was born mentally incompetent So so you need to know that she has a habit of doing this and I feel because of based on what my father said In 2024 before he disappeared that these documents have been altered The will document the letter of wishes.

The other thing though is Chad GPT says the letter of wishes is not professionally done And it's got words like harassment lies it says it picked up a word predatory interest and he says that's not a professional day to write a letter of wishes and It doesn't mean my father didn't write it. But okay, so this is probably not a real document It's probably being altered for you know She did maybe to collecting sort of another document and one of his old letters and pasted in here You know, and then she's taken a low-resolution photo with her phone So this is fraud and I think I personally think it's broad Chad GPT says there's a strong likelihood of fraud Do you know do you know that the person's you know that to alter a document the original document that two persons have my father has signed a two-person document We just have one of the document but what she can do is that she can go on to the computer and alter the text now that the textual content to be something different from what it is, so if it is really You know degraded that we don't think the people who signed it the witnesses are at fault But mrs. Tiggery who is next door number 20 She isn't a reliable witness if she signed as my father for the registered post letters because she's doing what did you want?

but the one in number 18 She is opposite on the opposite side And so the person next to the first of my father's house is the more like even though Opposite is not going to sign for it Unless my sister was visiting or somebody was living in the house and they look like two different handwritings one is signed as Krish It's definitely not my father.

[Speaker 2] (6:22 - 7:00)

These are definitely not my father's signatures, but they signed as my father Which is which you know, which is fraud and I've got those But just wanted to know that And we should have the action protocol letter against the will and we haven't got a response yet and I believe tomorrow is a good day.

[Speaker 1] (7:01 - 7:06)

So she has not yet replied. So she has until tomorrow to reply and she has not yet shown up.

[Speaker 2] (7:07 - 7:14)

I have a small budget to give up smart cities to pay costs, right? So then we are making an application to vote.

[Speaker 1] (7:14 - 8:03)

She has done this before I mean, I know I don't write letters without signing them, okay So I don't do things like that I was very clear about whatever I was saying Because in 2010 I felt my parents and my sister were trying to deport me and she was more like a passive partner So I gave her a piece of advice But there was nothing in it to incriminate me as such and the emails she submitted in the civil case They are written by me, but they're not written to her and there is no

mention of Biju, her husband or her children There's no mention of harming children. So that is not only interesting evidence, which we have to get We have to get that, we have to get that So you know what to do about, you know what to do with the, you know, the correct protocols You can't tell them it's fraud before you have evidence No, you cannot plead fraud.

[Speaker 2] (8:04 - 8:07)

Even if you want to plead, if you say it is fraud

[Speaker 1] (8:07 - 8:08)

Yes

[Speaker 2] (8:08 - 8:14)

You must have to have evidence, otherwise how you can say that it is fraud

[Speaker 1] (8:14 - 8:16)

So ask a document examiner

[Speaker 2] (8:16 - 8:23)

If two persons come, I don't know, listen If two persons say they witnessed a signature, that's it, your case is gone

[Speaker 1] (8:25 - 9:10)

But the two persons did not witness the alteration Because after the two persons sign it, right, I can do it in ten minutes, I can do that in ten minutes Now let there be two witnesses, ten witnesses Now I'll get hold of the document you signed with so many people And then I will change the textual content of the document, not the signature Or I can cut and paste the signature, it is their real signature But my case is not gone if she did alter the document Because she did, I mean, what she did is she did alter it We need a document examiner or somebody to verify if they think there's a likelihood of fraud Because they have digital tools and they will be able to tell if the document was tampered

[Speaker 2] (9:10 - 9:19)

No, of course, you know, before the hearing, of course, we will see the original letter of issues, okay

[Speaker 1] (9:19 - 9:22)

How will you see the original? You'll see it later

[Speaker 2] (9:23 - 9:30)

Yes, we'll see it later, they must disclose Even the judge will see if it's original or not

[Speaker 1] (9:30 - 9:56)

But the judge is not a document examiner and Vijay has done this before Because she has done this before So if she gives you an original, she will bring the original or she will give you an authorised copy or something But like, if she doesn't then it has to be analysed to see what was changed I mean, you're saying she's refusing to pay and, you know, she will refuse to the last day

[Speaker 2] (9:56 - 10:02)

Okay, okay, okay, that's not the ideal signature or the true signature of your father

[Speaker 1] (10:02 - 10:09)

It could be the true signature but it's pasted, maybe pasted from another letter Cut and pasted

[Speaker 2] (10:09 - 10:17)

Yeah, listen, it would be that you follow the target of your father's policy

[Speaker 1] (10:17 - 10:27)

No, I'm saying it would be, but it's probably pasted from another letter It's very low-level skill, I can do it in five minutes You just get a letter, take the signature out, paste it on another letter

[Speaker 2] (10:29 - 10:39)

Listen, I know whatever you can say, but we must follow the rules and regulations If you want to say that there's no evidence, it will just be stuck out

[Speaker 1] (10:39 - 10:42)

Okay, okay, sorry

[Speaker 2] (10:42 - 10:52)

Yeah, it will be stuck out, but still I'm putting to you, if you want to delete this one, I can put it here I can say that that's not your father's signature

[Speaker 1] (10:52 - 11:04)

No, I think I wanted to say the document's been altered Because it is his signature, but it's taken from another document I mean, I don't know what you did I mean, I'm not saying what you did,

but there's some mess up in it

[Speaker 2] (11:05 - 11:15)

If you want to employ a handwriting expert, if you want to do that If you want to instruct a handwriting expert, that's fine

[Speaker 1] (11:17 - 11:20)

I will find out about it and how much they will charge

[Speaker 2] (11:21 - 11:26)

I don't know, they charge around 5,000 perhaps, so probably we'll ask you to pay half

[Speaker 1] (11:26 - 11:54)

I don't know, like someone in Ireland who does, I don't know, 1,000, 2,000 I don't really know, maybe they will charge 5,000, I don't really know what's going on So I will see about that You're not worried, you're not worried You're not worried about this thread, because you thought it might be fraud, but you're not worried about this

[Speaker 2] (11:54 - 12:25)

If you think you want to plead, it's a fraud But fraud is a serious allegation, unless you have evidence You'll be in trouble, I tell you now You need to have evidence Without evidence, doing an allegation of fraud against anybody, it has serious consequences It will damage your case If I think fraud, I will not be able to put into pleading that she did fraud I will be, because I'm regulated by my rules and regulations

[Speaker 1] (12:25 - 12:37)

So what about the letter of wishes, the Chattopadhyay says that it's a non-tradition in a non-professional manner I'm not Chattopadhyay, I'm not the AI

[Speaker 2] (12:37 - 13:03)

Whatever Chattopadhyay says, I will take into consideration We'll see, normally what we do, we like to do all the people, two people Sign on the wheels, and the two people, the different people sign on the letter of wishes So we'll write to them, we'll ask them, did you see it, who signed this, who prepared this We'll write to them, and we'll wait for the response

[Speaker 1] (13:03 - 13:35)

Oh, I wanted to tell you, the father is number 19, and Mr and Mrs Slade is number 18 Mrs Slade is African, she's a churchgoer No, Mr and Mrs Slade, I don't know why, they may not be a very

reliable witness Because they signed, I think they signed fraudulently as my father No, but it's not him, it's not him, he wasn't living there and somebody else signed I don't know who signed, somebody else signed for him He wasn't there

[Speaker 2] (13:35 - 13:59)

We need evidence, I know we need evidence, let us do the job that way we do it We'll write to them, we'll write to them, we'll ask them to confirm We'll talk about these things later

[Speaker 1] (14:00 - 14:03)

Let's continue with the dog, let's continue with the dog

[Speaker 2] (14:04 - 14:31)

Once it is drafted, I will send you the draft and the media And if you want to add anything, we'll talk about it, we are working on it So I'm giving her a heads up, she's speaking about that course, but I haven't got a response But tomorrow is the deadline, let's see what happens She has a lawyer already, she hired a lawyer

[Speaker 1] (14:34 - 14:39)

Ok, but you don't know if my father left his will with a trustee or a lawyer or left it in her home

[Speaker 2] (14:39 - 14:45)

It doesn't matter, that's not the legal requirement They are not lawyers, they signed the will

[Speaker 1] (14:46 - 14:51)

You said you have a bill from 2021, earlier bill, saying they are getting an equal share

[Speaker 2] (14:53 - 15:32)

It's not equal, they said something, they gave you something First will, but second will, second will is taken completely out I think I gave you the first will and second will Ok, so I will email you the fourth will, so you read it It's not her, but it was given, it was a discussion Ok, we'll talk about it, we'll talk about it, I will email you the fourth will I believe I've been part of council

[Speaker 1] (15:32 - 15:34)

Yes, yes, thank you

[Speaker 2] (15:34 - 15:36)

Ok, thank you, bye

[Speaker 1] (15:36 - 15:37)

Bye
