Dear Mr Sufian

My immigration history is 100% fresh information for the home office. They have NEVER seen it

I have gathered together the documents you needed as per Fridays conference from me.
I need more time to get bank statements, however I had one bank statement. I am attaching screenshots of my bank accounts, enabling you to see my balance/total.

I need until Tuesday morning to get the doctor /blood test appointment you requested, They said I can pay and book the blood test for a day in June, but it is self-booking and comes as an email. I am looking for a doctor.

I have organized the attached documents into folders. I have named the files after the folders so you can easily see which folder the file belongs in.

I have attached a letter from my father 2023 which is supposed to be to immigration. He signed as Pipi and not his name. He did not date the latter but added his address phone numbers and passport number (Indian). I have attached a photo of him and me showing facial resemblance, the land registry title deed in his name. Also my university degree from Manchester showing my surname (maiden name) is his stated name on the title deed

In the folder "immigration-history" I have not lived in a dozen countries but a bit of moving around and deportation from the US. Not refused entry visa, refused asylum in the US. My passport used for deportation from the US and to enter the UK included-hopefully its all there. A note "deportation of a physicist" by a professor in the trying to help me.
