Dear Mr Abu

It was hard for me to get this together, and wasn't able to find some items as I am in a huge mess. The documents are accessed by downloading the web page. I dont want it to be hard for you so I suggest you read the headings on my statement, more only if needed and Viju's civil case is very long. There is no need to read such long documents. I want to try and make it light and easy to my letter is 2 pages. I think for the guilty plea, I need the time my father made a malicious referral and locate when my father's letterhead was forged(Basmags) onto an email file I was looking at in 2024. Police were framing my father. This is a huge mess and will work on it. I think to read my 2 page letter and the headings on my statement. You have the chargesheet sentence and court attendances, proof -I think -solicitor pressured guilty plea.

Thanks

Mohini
