Dear Alex
When I signed a blank form for Ravinder Kaur, you said I was being a fool. Indeed her and name and biodata were on the form. I just signed it. We learnt she was not licensed and did not have the authority to sign as she was not licensed. Now was Raju Thapa of Asghar Solicitors who also made me sign the JR petition.

We also learnt the solicitor (in these cases) had no license so he or she had the right to give legal advice but not represent us in court. We also learnt cases where the candidate signed for themselves was going to be refused.

We are both confident ABU is licensed.

Abu HAS NOT filled the grounds for appeal. Basically he filled my name and his. He is in a tearing hurry to get me to sign this form. I am always alerted when someone is in a tearing hurry. Can he not fill the grounds at least a summary first? There is also a small error in the form where a legal representative is present but my signature is needed saying I agree with all that is said in this form, and DO NOT have a legal representative

The following are worrying

He is desperate I sign it before I can say cheese

The JR form format does not require my signature as long as I have a legal representative is present. It does not specify if it needs my his or both signatures. Abu says he does not wish to sign it

Perhaps ABU wants me to take responsibility for agreeing to content, in case I blame him later, but without seeing the content. By getting my signature ABU is making sure WHEREAS I MAY LOSE THE CASE HE WILL WIN.
