Dear Mr Abu,

Attached is the above mentioned letter that arrived 4th October/yesterday. Please can you deal with the requirements of this office during weekdays or when you have time. Important are the items where the benefits office asks you what you are doing for me and they need a letter from the UKBA. They are going to permanently refuse to grant me benefits on October 16th. However it would help if you wrote a letter to them defending my right before October 16th and if unable to do so write asking for postponement of the deadline to suit your convenience. Since we do not want UKBA writing to the Irish benefits office you need to explain that to them. I am unable to produce bank statements on Oct 16th. They have (deliberately??) lost statements I submitted and there would be a long delay to get another set of hard copies. I want to show the Irish made it impossible to work so I mean they are obliged to pay.

PS you have sent alex a breakdown of what all he has paid you. The bigger this amount-the worse my chances with the Irish benefits office. The office did not ask for total amounts. Your letter would be more

effective if you cater to people who are legally and numerically illiterate. Surely you are expert. I am going to commit suicide if I am kept permanently unemployed and dependant on "partner". Please see the attached letter
