You sent 3 letters

(Letter#1) WM583854811GB has a signature

This letter's signature looks similar to the signature when I sent a registered post letter to my addressed ONLY o my father- to Mala, delivered on April 24 to my father but he could never be contacted again once he moved into her home.

You wrote ;

.On 23 January 2026, the Defendant refused to accept a formal letter**(Letter#2)**(Ref: OK534161938GB), and a further letter**(Letter#3)** sent on 27/01/2026

Alex raised a concern-He wants to know whether Viju Wortley has a viable case that she did not receive either letter#2 and letter#3.

(Letter#2) (Ref: OK534161938GB) is showing as refused and returned to the sender

(Letter#3) (Ref: OK534162054GB) is showing as never having been delivered by Royal Mail

Lumo AI asks: Do you have all 3 orange/green barcode slips that RoyalMail normally gives during recording delivery. That way you have a proof of post

Alex says Viju can present the will later. Can she? I gave my address to my father before the last time I spoke to him. I suppose he gave my address to V (Carston Grove) had my address from April 2024 and Viju had the ability to contact me if she wanted about the will. Alex said to watch for mail from Viju. T

Sorry to bother
