You sent 3 letters

(Letter#1) WM583854811GB has a signature

This letter's signature looks similar to the signature when I sent a registered post letter to my addressed ONLY o my father- to Mala, delivered on April 24 2024. She signed it and refused it and sent it back. Another registered post letter addressed ONLY to my father to 19 Carston Grove delivered on May 11 2024 was signed for and accepted by Viju Wortley. I don't believe she gave it to my father but he could never be contacted again once he moved into her home.

You wrote ;

.On 23 January 2026, the Defendant refused to accept a formal letter(Letter#2)(Ref: OK534161938GB), and a further letter(Letter#3) sent on 27/01/2026 (Ref: OK534162054GB) remains unacknowledged. The Defendant did not reply to the any of the letters. This patterns of behaviour confirms that the Defendant is unfit to act as a fiduciary.

Alex raised a concern-He wants to know whether Viju Wortley has a viable case that she did not receive either letter#2 and letter#3.

(Letter#2) (Ref: OK534161938GB) is showing as refused and returned to the sender

(Letter#3) (Ref: OK534162054GB) is showing as never having been delivered by Royal Mail

Lumo AI asks: Do you have all 3 orange/green barcode slips that RoyalMail normally gives during recording delivery. That way you have a proof of posting. It said Viju can win the bit where she never received (Letter#3). But you have written the truth that you did not get an acknowledgement. What do you think for that?

Alex says Viju can present the will later. Can she? I gave my address to my father before the last time I spoke to him. I suppose he gave my address to Viju when he was bedridden in her home. What is certain is Viju always had Alex's address and mobile and landline. She could have got in touch with me via Basingstoke police. Agnes Slade (18 Carston Grove) and Mrs Tidbury (20 Carston Grove) had my address from April 2024 and Viju had the ability to contact me if she wanted about the will. Alex said to watch for mail from Viju. The mail is reliable here and nothing has come.

Sorry to bother
