Sorry for the delay. I slept then my internet had hiccups. I have noted 1 para in 2ND WITNESS STATEMENT OF COSTS_.

1. My relationship with the Defendant has been fraught for many years. In July 2013, a restraining order was issued against me by the Court prohibiting me from contacting the Defendant and her family directly or indirectly. I have respected this order. However, it has been used by the Defendant to distance my father from me and to exclude me entirely from his estate.

This needs to be further explained. Viju has arguments why she need not pay. Ultimately, you may get nothing or very little. I have facts here you dont know. I have 99% of the evidences I am referring to, and have already stored in a URL on github. There are facts you dont know here., My statement is 3 typed pages. Showing how she prevented contact with father. I know it may be hard for you when you are so busy to resdy 3 pages. But please please on my bended knees submit my statement attached.

My printer is not on and i will do the signatures in the morning N244 and this one??
